The Journal backs its weak defense, which is but an unsupported dealal, with the plea that Topeka being the capital of the state office holders and office-seekers are logically most in evidence. That being true, what's the objection to doing away with such complaint by a removal of the capital to a point a hundred miles or so nearer the center of the state's population? In which event the ofby the Topeka pocket.

The absolute importiality with which "Andy" distributes his favors in the joke line was never better illustrated than in his masterpiece. In this greatest of jokes "Andy" involved not only "the old man"—the revered and dignified "head of the house"—but also his best customer, one of the richest and most dignified merchants of St. Louis.

It happened in this wise:

"Andy" had often told the "old man" about Henry Myrick, his St. Louis customer, and had as often painted the vittuces of John Edwards, "head of the house," to Myrick. But the two men had never met. Finally a trade banquet was arranged for at one of the big Chicago hotels and "Andy" went down to St. Louis to take a special invitation down to Myrick.

R-I-PA-N-S Tabules have done wonders for me. I was bothered with dyspepsia and constipation. My niece had used Ripans Tabules for headache and they did her so much good she asked me to try them. After the first two 5-cent boxes I felt much better and I have been using them ever since. In six weeks my trouble had almost gone. That was about two years ago, and I have had no trouble with eating anything since that time.
